PARTNERSHIP ROLE

For all sectors working to improve education attainment, Bridging Richmond is the convener that improves the way we take action together from cradle to career by measuring what matters, identifying best practices, and scaling what works.

VISION

Every person in our region will have the education and talent necessary to be successful from cradle to career.

MISSION

To engage the community to address shared education and workforce priorities through data, collective action, and improvements from cradle to career.

Challenges to Continuous Improvement

THE LAST MILE

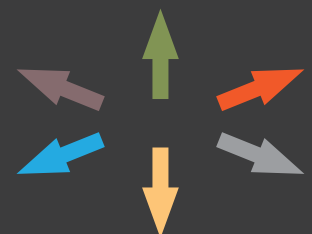

As we get above 85 or 90% additional gains become more difficult.

EQUITY GAP

We can't close the gap without addressing differences in opportunity and outcome.

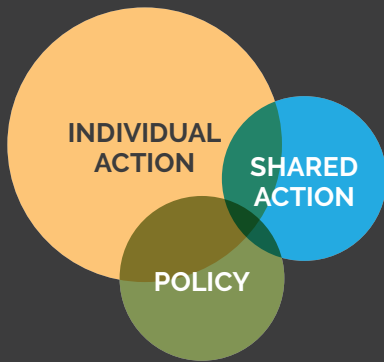

ISOLATED CONTRIBUTIONS

Minor collaboration and isolated action is not enough to ensure success for **ALL**.

How Does Bridging Richmond Accelerate Improvement?

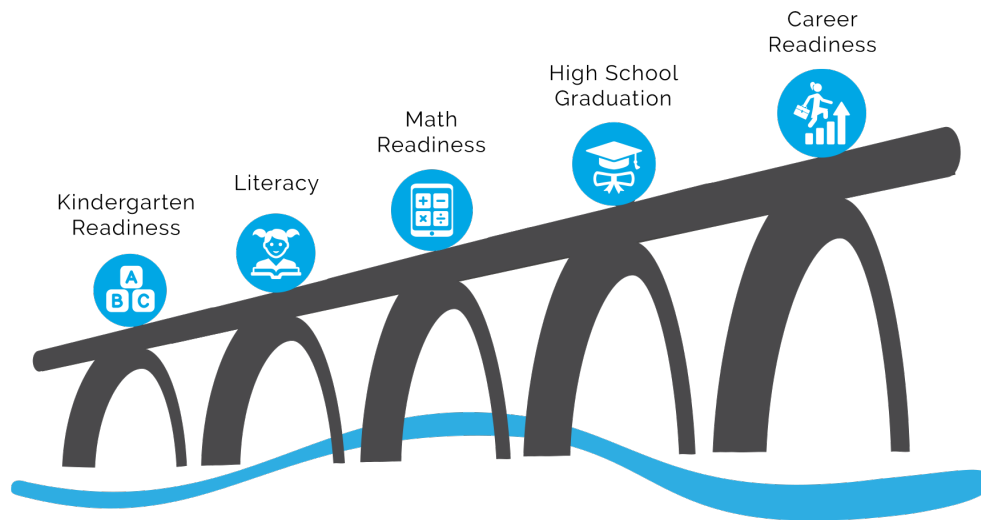

IMPROVEMENT IN ISOLATION

CATALYZE ALIGNED CONTRIBUTIONS

IMPROVEMENT IN SYSTEM

Collective Action - Cradle to Career

What Does Success Look Like?

CODE RVA

Code RVA is on track to open Fall 2017 with more than 200 students already taking MOOCS and a very diverse applicant pool.

RVA FUTURE CENTERS

Bridging Richmond partners developed an impact framework and data system.

NEXT UP

Bridging Richmond created the shared data system for NextUp that creates a standard for shared measurement in the middle school action area.
